## 🚗 Go-To-Market (GTM) Cheatsheet

### What is GTM?

- A **strategic** plan which outlines the steps necessary to launch the company's product to market esp in SaaS
- This step usually comes after **validating** your business idea so you can sell to the right customers
- It is different from **marketing** strategy as it helps with GTM and is ongoing even after the launch

#### Define Ideal Customer Profile (ICP)

- This is someone who will likely **benefit** from your product
- Who** are they?
- What** do they do?
- Where** do they work?
- What **challenges** do they face daily?

- Benefits they might get:
- Improved productivity
  - Better efficiency
  - Cost reduction

#### Product Messaging

- Research your **competitors** to determine how yours differ and is the better solution
- Show the **value** of your product
- Focus on your **unique value proposition**
- Target customers' **pain points**
- Speak the 'sales language'
- Develop key **branding** message

#### Pricing Strategy

- Research different pricing strategies to see which one suits best
  - Factors: **size** and **cost** of customers' problems
- Pricing models:**
- Flat rate
  - Tier plan
  - Freemium
  - User-based
  - Pay as you go
  - Subscription based on features

#### Distribution Channels

- Strategies:**
- Product-Led Growth (PLG)
  - Sales-Led Growth (SLG)
  - or hybrid (SLG/PLG)
- Marketing channels:**
- Content marketing
  - Email marketing
  - Social media
  - Advertising
  - Cold calls
  - Paid ads
  - SEO
  - PR

#### Key metrics optimisation

- KPI & metrics:**
- Customer acquisition cost (CAC)
  - Customer lifetime value (LTV)
  - If  $CAC > LTV$ , you'll need to re-evaluate strategies to increase customer retention
- Optimisation**
- Gather feedback from customer experience and KPIs to optimise marketing & growth strategies

	Strategies	Channels	Actions
Awareness	How do you deliver your brand value?	Direct	
Interest	How do you position your company from competitors?	Organic	<ul style="list-style-type: none"> <li>Content marketing</li> <li>Email marketing</li> <li>Paid ads</li> <li>SEO</li> <li>PR</li> </ul>
Understanding	How does social media help customers understand your product?	Do you keep the broader audience or target a narrower market?	
Engagement	How can PR increase engagement of brand?		
Trial	How to deliver the product/service you promised?	Partnerships	<ul style="list-style-type: none"> <li>Trials</li> <li>Demos</li> <li>Contracts</li> <li>Community</li> <li>Customer support</li> <li>Customer onboarding</li> </ul>
Purchase	How to record customer retention and key metrics?		

### Examples

#### Slack

- Leveraged word-of-mouth marketing and social media platforms to drive **engagement**
- Offers free version for user adoption
- Community** building
- Referral program focused on building brand **awareness**

#### Loom

- Product-Led Growth (PLG) strategy
- Free plan with essential features
- Simple onboarding process
- User-centric** approach and user friendly interface
- Focus on user **feedback** and iteration to improve product

### ⚠ Mistakes to avoid

- Lack of focus
- Unclear definition of ICP
- Targeting the wrong market segmentation
- Unclear unique value proposition
- Overselling features instead of values
- Using the wrong marketing strategy
- Using the wrong pricing strategy
- Too much focus on customer acquisition and ignoring retention and referrals
- Tracking the wrong metrics which leads to limited optimisation
